

SMC sponsoring automation training equipment supporting Crest and Spectra Secondary School Open House

In Singapore, Crest Secondary School and Spectra Secondary School are secondary schools for students eligible for Posting Group (PG) 1 only or the PG1/2 Option Band. They offer an alternative educational pathway for students who prefer a customised, hands-on and practice-oriented curriculum.

Following the signing of MOU on 16 November 2023 on SMC automation training system sponsorship with Crest and Spectra Secondary School, they welcome students to visit their Open House from 22 to 25 November 2023 to better understand the subjects offered and the progression pathways after graduation from Primary School. The newly addition of SMC automation training system will elevate the schools technical education, help enrich and equip students with the learning and knowledge on industrial automation in Crest and Spectra journey, capture their interest and grow their passion to pursue their career path as future Engineer in Singapore.
